Italian Carrara stone basins are crafted from world-renowned Carrara marble from Tuscany, Italy, known for its soft white base and delicate grey veining. Each basin is naturally unique, with subtle variations in pattern and tone.

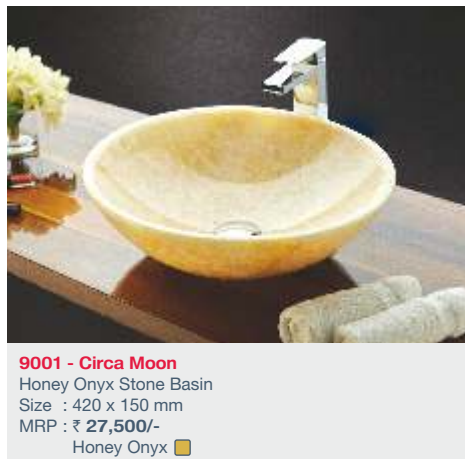

Smooth, durable, and elegant, these basins add refined luxury to bathrooms, seamlessly complementing both modern and classic interiors. A true statement of craftsmanship and timeless style.

MRP : ₹ 4,950/-

- ☐ Carrara Marble
- ☐ Portoro Gold Marble
- ☐ Red Marble
- ☐ Travertine Marble
- ☐ Green Marble
- ☐ Honey Onyx

Portoro Gold stone basins feature a striking black base with rich gold veining, creating a bold, luxurious statement that reflects timeless opulence and refined taste.

Honey Onyx basins are admired for their warm golden tones and natural translucency. With soft veining and a radiant glow when illuminated, each basin is a unique blend of functionality, art, and exclusivity, pairing beautifully with brass and gold fittings.

Rosso Levanto stone basins feature deep burgundy tones with delicate white veining. The rich color adds warmth, and depth to any space. Each basin uniquely patterned.

Alpi Verdi stone basins are distinguished by their deep green tones and flowing white veins. The stone reflects the beauty of natural alpine landscapes. Its rich color adds a sense of luxury and tranquility. **Alpi Verdi** blends well with wood, brass, and neutral tones. A perfect balance of elegance and nature-inspired design.

River Stone Greyish Black Colour ☒

River stone basins are handcrafted from naturally smoothed stones shaped by flowing water over time.

Each basin retains its organic form, making every piece truly unique.

The natural textures and earthy tones bring a sense of calm and connection to nature.

Ideal for spa-inspired and contemporary bathrooms.

River stone basins combine raw beauty with functional elegance.

Concrete Pedestal Wash Basin
With Rough Texture On The
Outside, Includes Pop-Up Waste
Coupling
Size : 400 x 850 mm
MRP : ₹ 1,19,500/-
Olive Green ■

Micro concrete pedestal basins in warm colours offer a perfect balance of modern design and earthy elegance.

Crafted with a smooth, seamless finish, they showcase refined craftsmanship and durability, it has an extremely high level of water tolerance and stain resistance. We have made concrete lighter and stronger, enabling us to create shapes with thin lines and curves. Each basin is sealed with a very effective, deep penetrating sealing system to allow a real world function.

Soft grey brings understated sophistication, while ivory adds a clean and timeless appeal.

Terracotta introduces warmth and character, creating a bold yet natural statement.

Olive green lends an organic, calming presence inspired by nature.

The pedestal form enhances visual impact while maintaining a minimalist aesthetic.

Ideal for contemporary and powder room designs.

These basins blend strength, texture, and color into a striking focal element.

Care Instructions for WC's With Special Finishes

- For everyday care, we recommend a soft, non-scratch sponge or cloth & clean water.
- If you wish to use a cleaning product, choose a standard all-purpose cleaner (diluted With water). Do not use aggressive or abrasive products.
- Warning: DO NOT use any cleaning products (Example Harpic) on seat cover surfaces.

3) All Rubber Parts (e.g shower nozzles & ring washers)

Whether you have a spare-part requirement, installation guidance request or a technical problem – we would be happy to assist you further. Our Team is passionate about delivering Exceptional Customer Service. We have a dedicated Toll-Free Customer Helpline backed by Service-Centres across the country. For complete Warranty & Customer Care details, use the following link: www.aquantindia.com/customer-care/

To ensure your Aquant product performs & gives many years of use, please follow our cleaning & care recommendations carefully, as any damages resulting from poor maintenance are not covered under the warranty. Our care instructions are mentioned in our warranty card. You can also use the following link to view comprehensive maintenance guidelines: www.aquantindia.com/cleaning-maintenance-guide/

Care & Maintenance – An Overview

- To ensure your Aquant product performs & gives many years of use, please follow these recommendations carefully, as any damages resulting from poor maintenance are not covered under warranty.
- Most products can be cleaned with warm water, a mild soap & a clean, soft cloth.
- It is not required to use any abrasive cleaning pads, wire wool or micro-fibre cloths to clean the product. Avoid a vigorous cleaning action.
- Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be detrimental to the product finish.
- If using a spray cleaner, apply the cleaning agent onto a soft cloth, never directly spray onto the product as the cleaner may enter gaps & openings & cause damage.
- Residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, after shave & nail varnish can also cause damage, carefully clean these using the methods above.
- If a specialized cleaner is required, always follow the instructions provided on the cleaning product, this would include application & dosage.
- Always test the cleaning agent on an inconspicuous area before applying to the whole surface, do not allow the cleaner to remain on the product for an extended period. After cleaning, rinse thoroughly with clean water.
- We would not recommend the mixing of different cleaning agents. After cleaning, dry with a soft cloth.

Caring for Chrome, PVD & other Special Finishes

- The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, not a rubbing action. Cleaning with a damp sponge & buff drying should keep your faucet looking beautiful.
- Most toilet cleaning products have high acidic content which can damage the finish; hence they should not be used to clean chrome finishes or PVD Finishes.
- If limescale has built up on your product do not attempt to chip this off as this could damage the protective lacquer & lead to further damage. Several applications of lemon juice (not a concentrate) or white vinegar, followed by a thorough rinsing with clean water will slowly help to remove it.

Caring for Artisanal Wash Basins & Special-Finish Ceramic Sanitaryware

- Do not place the product outdoors or in direct exposure to sun light.
- Stainless-steel may discolour if left in contact with salts or acids for extended periods.
- Residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, after shave & nail varnish can also cause damage if not wiped up right away, this can allow the acids to react & eat away at the calcium carbonate in stone wash basins, creating permanent markings.
- Wherever Rose Gold/ Gold/ Silver/ Matt Finishes/ Marble Finishes or any other type of special finishes are used on ceramic products, use only warm water to clean & then dry with a soft cloth. Ensure that specialized cleaners are only applied to the specific area & do not meet other materials that could be affected by it.
- If you wish to use common cleaning products on Toilets with Rose Gold/ Gold/ Silver/ Matt Finishes, dilute the cleaning product with water. Do not allow the cleaning product to sit on the product, rinse immediately. Restrict use of cleaning product to only the inside of the toilet bowl & DO NOT allow the cleaning product to have contact with external surface finishes or the toilet seat. DO NOT use such cleaners on Wash Basins.
